

25th June, 1965.

H. Paterson Esq.,
University College of Rhodesia and Nyasaland,
Private Bag 167H,
Salisbury,
Rhodesia.

Dear Mr. Paterson,

I would be grateful for any comments, additions, corrections etc. you may care to make concerning the enclosed distribution list of members of the A. gambiae complex in particular your reference for species B from Big Bend and completion of some of the other references. I am sending this list to both Coluzzi and Hamon for their comments also before it finally goes to Dr. Davis at Johannesburg.

Yours sincerely,

G. Davidson
