

GD/LM

10th July, 1962.

Dr. H.E. Paterson,
The South African Institute for Medical Research,
P.O. Box 1038,
Johannesburg,
South Africa.

Dear Dr. Paterson,

Some Diggi eggs are being sent to you today. They have either a very narrow sector spot or the costal part of this spot may be absent. I have just been crossing this strain with the Pare strain I sent you a short while ago. F_1 males were sterile from both reciprocal crosses.

Yours sincerely,

G. Davidson.
