AIRMAIL

12th February, 1970.

Dear Hugh,

Thank you for letting me know your whereabouts. We all think it would be a good idea if we took advantage of your visit to have a little get-together on the naming of the A.gambiae complex. By all I mean Peter Mattingly, Mick Gillies, Mario Coluzzi (if we can get him here) and possibly John Reid and Professor Bertram. It may take time to arrange for Mario to come so I would suggest the week starting 6th April - in fact, I would propose as a tentative date, Wednesday, 8th April, say from 10 a.m.

To give you some idea of my feelings on the subject, I
/ enclose copies of a letter to Mario Coluzzi and his reply.

I look forward to seeing you again.

Yours sincerely,

G. DAVIDSON, D.Sc.
Reader in Entomology as applied to Malaria
